8 What would you like to see discussed, presented or demonstrated at future SIG meetings? (Include your own work here if you feel it would be useful)

Lower-level reference model work, actual specs and implementations
Approach to metadata entry/contraction from academic/unskilled users' point of view uploading material to repository. How do you facilitate this? Engendered or done by designated archivists, etc?
URIs
UKCDR project's work on high stakes assessment item bank. BBC Jam project: very interesting workflow
DC Abstract Model - DC - LOM Crosswalk. When it comes out in July?
Some more of the JISC DRP
Repository management: issues, challenges, problems, solutions, cost-benefit
Interoperability, employing data standards, communications standards, etc

9 Please add any suggestions you may have about the format of the meeting?

Still great after all these years
Deployment of OAIS for a reference model for this space
OK as is
Meetings are great. An online follow-up facility (specific to the meeting) would be very useful

10 Do you have any other comments or suggestions for the metadata SIG or Pedagogy Forum?

Very interesting, useful and as informative as ever
No - you're quite perfect
Very nice lunch, thank you! Good discussion and presentations
Useful for updating and sharing changes in sector focus
Informative, well-organised and great location
